

Wisconsin Recommendations for Change in CR&R

Whereas the National Patriotic Instructor and National Chief of Staff positions are national main fundraisers to maintain the yearly cost of the National Order and a requirement to be completed prior to running for National Vice President and National President. The minimum amounts must be met prior to advancing to the National Vice President or National President position. If not met, the sister may attempt this goal in the future. Upon reaching the minimum goal, she may be eligible to run for National Vice President or National President. The minimum funds required to be raised by the National Patriotic Instructor is \$2,000 and for the Chief of Staff position is \$2,500.

Whereas the National Auxiliary has specific yearly financial obligations (scholarship \$1000, wreaths minimum \$800, Patriotic Instructor donation, President \$5000, secretary and treasurer cost, etc). The Auxiliary similar to a healthy business must earn funds and stay within a budget. Funds must be raised.

Therefore, the responsibility of these officers must be earnest in fulfilling the required minimum of their position not to include nor depend on the Wreaths Across America earnings.

Whereas the National financial obligations surpass the amounts earned by the National Patriotic Instructor and National Chief of Staff, the amounts earned by the Wreaths Across America funds needs to be separate from the Chief of Staff funds and listed separately in our funds.

Kara Nguyen
Secretary, Department of Wisconsin
