

## Letter of intent for the Office of National President

This letter is to notify the membership of the Auxiliary to Sons of Union Veteran of the Civil War of my intent to again seek the office of National President.

During my year, I strove to seek the reduction of expenditures, be fiscally prudent to mirror the money allotted.

I provided guidance, education, and witness to the newer auxiliaries and departments.

This next year will be a year of educating our members on tradition, principles, and objects of the Order. To be fiscally sound, we also need to maintain a budget as well as find ways of securing additional funds. The 501c3 tax exemption is an extreme necessity for us to continue. Great strides in obtaining proof of our endeavors as a patriotic and educational organization has been documented.

I thank you for support.

Danielle Michaels

National President
